Arabic Audience Sentiment & Retention Intelligence

Transforming raw multi-dialect Arabic video comments and audience drop-off curves into actionable editorial and commercial growth decisions. Live in production at **https://app.sky-develop.net**.

5+ Dialects

MSA, Gulf, Levantine, Egyptian, Iraqi & Maghrebi sentiment + first-class Mixed label.

ADR-0009

Automated Retention Curve Diagnostics linking video drop-off timestamps to comment clusters.

100% IP

Bootstrapped & owned by Sky Develop LLC • Live Paddle SaaS billing ($12 to $249/mo).

Founder & CEO: Dr. Mohammed Lubbad (info@sky-develop.net)

Why Global Analytics Tools Fail Arabic Creators & Media Networks

Over 120,000 monetized Arabic channels and 3,500+ MENA media houses & agencies operate blind because Western social listening tools break on Arabic video audiences.

1. Dialect & Sarcasm Blindness

Standard APIs misclassify Gulf, Levantine, and Egyptian idioms, religious invocations, and Arabic sarcasm as Neutral or Negative, corrupting decision-making.

2. Disconnected Retention Data

Creators see where viewers drop off in YouTube Studio, and see thousands of comments below, but have zero automated link between timestamp drop-offs and audience complaints.

3. Enterprise Price Lock-Out

Legacy suites (Brandwatch, Sprinklr) charge $2,000+/mo while still treating Arabic as a secondary translation layer rather(than) a native morphology.

An End-to-End Arabic Audience & Retention Intelligence Engine

Multi-Dialect Sentiment & Honest Denominators

- Native Arabic transformer + LLM calibration across MSA, Gulf, Levantine, Egyptian, Iraqi, and Maghrebi dialects.
- **First-Class Mixed Label:** Ambivalent feedback is classified as Mixed; skipped or failed rows never pollute Neutral or corrupt the denominator.
- **Moderation Anomaly Detection:** Automatically flags unnatural negative-comment suppression on public channels.

Retention Curve Diagnostics (ADR-0009) & Zero-OAuth Ingestion

- **Dual Ingestion:** Full YouTube OAuth for channel owners + instant Public Channel URL ingestion for agencies & competitor benchmarking.
- **Retention Diagnostics:** Identifies hook failures, mid-roll fatigue, and pacing drops alongside extracted comment topics & action items.
- **Executive Exports:** 1-click bilingual Arabic/English dashboards & CSV datasets.

Validated on High-Velocity Arabic Channels & Media Libraries

4,000+

Creator Pilot (dashboard.sky-develop.net)

Shipped a live custom intelligence dashboard in 5 days for Sheikh Alaa Al-Jaber's top videos. Isolated 56 surviving negative comments and proved statistically that moderators were manually deleting negative feedback—immediately confirmed by the client.

1,592 Videos

Large Channel Ingestion & Classification

Successfully ingested and indexed a 1,592-video Arabic channel library and exported 925+ classified comment records during live operator onboarding sessions.

< $35 / mo

Ultra-Lean Unit Economics

Full multi-tenant production stack (React RTL, Python workers, durable spool, PostgreSQL RLS, Cloudflare edge) running at <$35/mo baseline infrastructure cost.

Sovereign Arabic AI Stack & Multi-Tenant Security

Technical Moat

- **Dialectal NLP + 39,000h Arabic ASR Integration:** Combines comment sentiment with multi-dialect spoken video transcript alignment (DZA, EGY, IRQ, SAU, SYR, MSA).
- **Deterministic Evaluation Gates:** Built-in statistical and schema verification ensuring zero hallucinated metrics.

Enterprise-Grade Multi-Tenancy

- **PostgreSQL Row-Level Security (RLS):** Strict workspace isolation verified by automated SQL tenant-isolation test suites.
- **Durable Spooling & Quota Engine:** Resilient collection workers that explicitly report partial/blocked states without silent data loss.

5-Tier Self-Serve & Enterprise SaaS Model

Creator Tiers (B2C / Prosumer)

- **Free Trial:** $0 (Up to 100 comments, instant value proof).
- **Creator:** $12 / month (Individual YouTube creators).
- **Creator Plus:** $29 / month (Multi-video retention & sentiment tracking).

Agency & Media Tiers (B2B)

- **Agency:** $99 / month (Talent & digital marketing agencies managing multiple creator rosters).
- **Media Network:** $249 / month (TV networks, OTT platforms, and institutional media).

Authorized Reseller Channel

- Performance-gated agency reseller partnerships (20%-30% commission on collected revenue) while Sky Develop retains 100% IP and billing control via Paddle.

Gross Margin > 85% across all paid tiers

Serving the Fastest-Growing Creator & OTT Media Market

$450M+

MENA Addressable Market

120,000+ active Arabic content channels, 3,500+ digital marketing & PR agencies, and 400+ broadcast/OTT & government media offices across MENA.

KSA Hub

Saudi Vision 2030 Alignment

Saudi Arabia leads regional YouTube consumption per capita; direct fit for Riyadh media houses, gaming/esports creators, and digital agencies.

Doha Hub

Qatar Media & RDI Ecosystem

Direct synergy with Qatar's broadcast, OTT, and QSTP/Media City innovation ecosystem where our founder has proven tier-1 production experience.

Purpose-Built for Arabic Video vs. Generic Social Listening

Legacy Enterprise Suites (Brandwatch / Sprinklr)

- $1,500 to $5,000+ per month with annual lock-in.
- Built for English X/Twitter brand mentions, not Arabic YouTube/video creator workflows.
- Zero integration with video retention curves or dialectal moderation anomalies.

Sky Develop Audience Sentiment (app.sky-develop.net)

- Accessible $12 to $249/mo self-serve & agency tiers with instant onboarding.
- Native multi-dialect Arabic sentiment + first-class Mixed label + honest denominators.
- Unifies Retention Curve Diagnostics (ADR-0009) with audience comment intelligence.

Led by Proven Arabic Media Telemetry & AI Systems Leadership

Dr. Mohammed Lubbad — Founder & CEO

- Senior Data, AI & Media Analytics Architect (Sky Develop LLC).
- Extensive production track record building behavioral event validation, BigQuery/GA4 insight engines, and content curation intelligence for tier-1 Arabic OTT platforms (including Al Jazeera 360).
- Full-stack AI systems engineer across Arabic NLP, multi-dialect ASR, and multi-tenant SaaS.

Sky Develop Venture & Engineering Studio

- Supported by Sky Develop's structured engineering & growth teams across data engineering, AI evaluation harnesses, and GCC B2B market research.
- 100% clean cap table and unencumbered IP ownership under Sky Develop LLC.

Scaling Across Saudi Arabia & Qatar

Q1–Q2: GCC Onboarding

Onboard 50+ Saudi & Qatari creator channels and 10 digital talent agencies; establish local GCC presence via KAUST Taqadam / The Garage / QSTP.

Q2–Q3: Multi-Platform & Voice

Expand connectors to TikTok, Instagram Reels & X alongside spoken-video dialectal ASR sentiment alignment.

Q3–Q4: Enterprise Media

Close 15+ institutional media & broadcast enterprise subscriptions across Riyadh, Doha, and Abu Dhabi, reaching $25K+ MRR.
